

Misunderstood

Injected

I'll say what you wanna hear
You got me low, with you coming near
I'll just watch you disappear
Leave this place, leave my fear

I can't get over it, I'm so sick of him, when there's no end in sight
Feel so low again, get me over it, I'm just not right

My heart is black, no going back to the days I thought were good
You should understand, I'm misunderstood

I was down for, self-assured
Second-hand, overheard
I can only sell the truth, got a curse, to share with you

I can't get over it, I'm so sick of him, when there's no end in sight
Feel so low again, get me over it, I'm just not right

My heart is black, no going back to the days I thought were good
You should understand, I'm misunderstood
My heart's so black, no going back to the days I thought were good, is this good?
You should understand, I'm misunderstood

My heart is black, no going back to the days I thought were good
You should understand, I'm misunderstood
My heart's so black, no going back to the days I thought were good, is this good?
You should understand, I'm misunderstood
