

On Fire

Injected

Oh, my love, what have I done? Lost myself again
Bloody fist, loaded gun, that you fed me
You kept me alone, and low, so I just turn and ran
I'm gone, so long

Well I know we'll go where everything ain't all right
Hurt myself, and bleeding, helpless, oh, the price is bright
Who will I find tonight? With loneliness, all right
Who will I find tonight? Go on

Scattered life, and endless night, I've been here before
Love is blind, faithless eyes, led me toward the door
I left you alone, and low, so I won't hurt no more
I'm gone, so long

Well I know we'll go where everything ain't all right
Hurt myself, and bleeding, helpless, oh, the price is bright
Who will I find tonight? With loneliness, all right
Who will I find tonight? Go on

The ocean breathes an endless heat, a thousand fortunes fade
I've been taught, to fight for long, and I am not afraid
So we're out on a lonely low, the coldest shore awaits
We're gone, so long, so long, we're gone, so long, so gone, so
long, we're gone

Well I know we'll go where everything ain't all right
Hurt myself, and bleeding, helpless, oh, the price is bright
Who will I find tonight? With loneliness, all right
Who will I find tonight?

Go on
