

You're not so alone
Your feelings of home
Are fading away
You're locked in your room
And you know it's over so soon
We're not meant to stay

Ruby you left me alone that night
Like ten thousand lights at the end of the night, good

You're not so alone
Your feelings of home
Are fading away
You're locked in your room
And you know it's over so soon
We're not meant to stay

Ruby you left me alone that night
Like ten thousand lights at the end of the night, good

Ruby you left me to die that night
Like ten thousand lights at the end of my life, goodbye
Goodbye, good

You're not so alone
