

# Senseless

Injected

Blasphemy fills my head  
Repentful dreams, I scream to the dead  
Justify the urgency  
It takes more time to heal where I bleed

Want, know, need  
Burn, break, bleed

This brings us closer  
This brings us

Days like these seem to fill me  
With a most unholy grace  
Talk to you, forget my part  
This thing I drowned in my broken heart

Want, know, need  
Burn, break, bleed

This brings us closer  
This brings us  
And yet we're closer  
This brings us

A stain on my senses that won't come clean  
This is a break I've already seen  
A stain on my senses that won't come clean  
This is a break I've already seen

I scream to no end  
Cry for me before I bleed to death  
Touch my filthy heart  
Cleanse my fears, cleanse my fears, help me start

Want, know, need  
Burn, break, bleed

This brings us closer  
This brings us  
And yet we're closer  
This brings us

A stain on my senses that won't come clean  
This is a break I've already seen  
A stain on my senses that won't come clean  
This is a break I've already seen
