

# MADELINE

INJI

(Madeline!)

(Madeline?)

Madeline, let's go

All the girls and the gals and the boys and the lads  
All the shots and the pints and the pills and the tabs  
Take a walk, have a cig, give a kiss, get a cab  
Big bill on my card, now my dad's real mad

Let's roll

Madeline let's roll

Let's roll

Madeline let's roll

Now it's 9 PM and Maddie's had too much to drink  
And it smells in here, I think there's throw-up in the sink  
And the boy in the corner thinks he'll pull me with a wink  
But he looks like sixteen and I just really want to dip

Girl this house party sucks

Can we call an Uber Lux?

Let's not leave anyone behind (Wait, where's Maddie?)

Hi, good evening, yeah, what's up?

Can we hop on the aux?

I know the owner, we can skip the line (Let's go)

All the girls and the gals and the boys and the lads  
All the shots and the pints and the pills and the tabs  
Take a walk, have a cig, give a kiss, get a cab  
Big bill on my card, now my dad's real mad

Let's roll

Madeline let's roll (Madeline)

Let's roll

Madeline let's roll

Uhm, let me tell you this story

Okay, so

Now it's 10 PM, I'm really glad we left the pre  
I pull my fake ID, "Yeah I was born in ninety-three"  
And there's lines around the corner, on the corner of the street  
"Do you think we'll get in?"  
I say "Don't worry, you're with me"

But this bouncer's a bitch

Thinks I look like a kid

Said he won't let me in tonight

I slipped a ten, he was pissed

"Would you do it for a kiss?"

My friend says, "Girl you're out of your mind" (Mwah)

All the girls and the gals and the boys and the lads  
All the shots and the pints and the pills and the tabs  
Take a walk, have a cig, give a kiss, get a cab  
Big bill on my card, now my dad's real mad

Let's roll (Madeline)  
Madeline let's roll (Madeline let's go)  
Let's roll  
Madeline let's roll

Now I'm at the bar and I'm feeling myself  
I'm like finally this is a vibe and I have  
Got like three margaritas, I'm ready to go  
Turn around I'm like "Ugh, where the heck is my friend?"  
Madeline gets lost anytime we toast  
She's always a big liability (Uh)  
Madeline's talkin' to a guy, "Dude, is that her ex?"  
"Are you kidding me?"

He's a short, cheap, ugly creep  
Maddie, it's just not that deep  
Let's go  
Madeline, let's roll  
You're a hot, smart, gorgeous blonde  
Such a waste of time, he's dumb  
Let's go (No way)  
Madeline  
Can we please go find

All the girls and the gals and the boys and the lads  
All the shots and the pints and the pills and the tabs  
Take a walk, have a cig, give a kiss, get a cab
