Go and get your green grown  
Go and get your green grown  
It's a real nigga theme song  
Go and get your green grown  
Go and get your green grown  
C'mon and get your dreams on  
Go and get your green grown  
Go and get your green grown  
It's a real nigga theme song

...

Snowmen, snowmen, get your chains on  
All these temporary niggas, go and get your bling on  
It's for my lady bugs and all my Klingons  
Almo-most like it's a head, so go and get your green on

Snowmen, snowmen, get your chains on  
All these temporary niggas, go and get your bling on  
It's for my lady bugs and all my Klingons  
Almo-most like it's a head, so go and get your green on

Never going away, I promise this ain't a swan song  
By the time you catch up, my nigga, we will be long gone  
Yeah, I'm kind of nice, just a little, be eating wonton-  
-soup, swear to god, I'm always drunk, I need a day to reef  
Cooping all my lyrics, so you can guess I just be spitting that  
Truth, always bounce back  
Homie, yes, nothing, one day I'll stop drinking and all the heavy puf-  
fing  
I just want to chill with my daughter and watch some Doc McStuffins

Snowmen, snowmen, get your chains on  
All these temporary niggas, go and get your bling on  
It's for my lady bugs and all my Klingons  
Almo-most like it's a head, so go and get your green on

Snowmen, snowmen, get your chains on  
All these temporary niggas, go and get your bling on

Go and get your green grown  
Go and get your green grown  
It's a real nigga theme song
