

# Vampire Punk Rockers from Hell

Inkubus Sukkubus

Born of Hell and born of night  
Anarchist and Antichrist  
Lost in lust, you shall be dust  
Now the burning Sun is falling

From the dark skies above  
We have come devoid of love  
A cornucopia of disease  
We will bring you to your knees!

We're the Vampire Punk Rockers from Hell!  
And we have come to destroy your world

All your nations rise and fall  
We have seen it all before  
We are your apocalypse  
And we are the final kiss

We're the Vampire Punk Rockers from Hell!  
And we have come to destroy your world  
We're the Vampire Punk Rockers from Hell!  
And we have come to destroy your world

Black on black and black on black  
From the void we're coming back  
We are lost, and lonely  
But we're the holiest of the holy

We're the Vampire Punk Rockers from Hell!  
And we have come to destroy your world  
We're the Vampire Punk Rockers from Hell!  
We are dreaded, we are destruction  
We're the Vampire Punk Rockers from Hell!  
We will take you and we will waste you

We are a nemesis from a distant star  
We are the dead, we are the damned  
Angels and monsters, from your nightmares and your dreams  
And we will drown you in erotica
