You know why I am here, You know, I glow when you are near, I glow, I'm taking more than I deserve, Because everyone has left me, And I'm leaving more than I deserve, Because I have gone too far now, I know, Forgive me, I promise I will change, For everyone around me, Believe me I will not let you down, Because I've got nothing left here, You know why, You know why, I glow now, You know why, I glow when your near me, you know, Lies rise, let me go, dead in my head.
