

Desperado

Inna

Physical

Closer to me than you'll never know
You took my love like a criminal
I will let you do the unforgivable
And I still pose for you like a centerfold
No matter what I'll be a sinful
Drop down all around you and anywhere
Baby, you can be my criminal, yeah

I am lost, take me when you escape
I'll run away, I'll run away with you
If this is a mistake, then it's my favorite one

This is all that I know
You're my desperado
I go wherever you go
I don't want no-one else, I want you
This is all that I know
You're my desperado
I go wherever you go
No matter what baby, I get, you get, we get

Animal

You eat me off like a cannibal
Silence of a lamb, Hannibal
Thank god that my body is so edible
You make me sweat like I never did before
Can't catch my breath, but I'm still ready for one more

I am lost, take me when you escape
I'll run away, I'll run away with you
If this is a mistake, then it's my favorite one

This is all that I know
You're my desperado
I go wherever you go
I don't want no-one else, I want you
This is all that I know
You're my desperado
I go wherever you go
No matter what baby I get
You get, we get
