Fire & Ice

Inna

Thousand steps together, more than enough
To prove that we're not wrong, but living our love
Do you know? Do you know? Baby, tell me you know
How strong is my love for you, do you know?

I love you like I love the sunny days of summer
I hate you like I hate the winter when it's cold
I simply love you, love your every season
Not many reasons

Call me, baby, now, I'll be there for you
Just call me, baby, now, I'll be there for you
Together we're fire and ice, fire and ice
Call me, baby, now, I'll be there for you

Finally, I get the meaning of us
A mix of understanding, loving and trust
Do you know? Yeah, you know, baby, tell me you know
How strong is my love for you, do you know?

I love you like I love the sunny days of summer
I hate you like I hate the winter when it's cold
I simply love you, love your every season
Not many reasons

Call me, baby, now, I'll be there for you
Just call me, baby, now, I'll be there for you
Together we're fire and ice, fire and ice
Call me, baby, now, I'll be there for you

Fire and ice, fire and ice
Fire and ice, fire and ice

Call me, baby, now, I'll be there for you
Just call me, baby, now, I'll be there for you
Together we're fire and ice, fire and ice
Call me, baby, now, I'll be there for you
