

## Just Dance

Inna

Follow the night, follow the night  
I wanna hide, I wanna hide  
Into your mind, into your mind tonight  
Don't wanna run, don't wanna run  
I'm not done, I'm not done  
Till you decide, till you decide tonight

All in your mind  
You know what you have to do  
Move for me baby, move for me now  
All in your mind  
You know what you have to do  
Move for me, baby, move for me now

So just dance for me  
You look lovely on my body  
So just dance for me  
You look lovely on my body

Follow the night, follow the night  
I wanna hide, I wanna hide  
Into your mind, into your mind tonight  
Don't wanna run, don't wanna run  
I'm not done, I'm not done  
Till you decide, till you decide tonight

All in your mind  
You know what you have to do  
Move for me baby, move for me now  
All in your mind  
You know what you have to do  
Move for me, baby, move for me now

So just dance for me  
You look lovely on my body  
So just dance for me  
You look lovely on my body

All in your mind  
You know what you have to do  
Move for me baby, move for me now  
All in your mind  
You know what you have to do  
Move for me, baby, move for me now

So just dance for me  
You look lovely on my body  
So just dance for me  
You look lovely on my body
