

Oxygen

Inna

(I need you in my blood, I need you in my lungs)
(Baby, you are my oxygen, I can't get enough)

Fever dreamin' when you leave me (When you leave me)
Hurting more than I can take, thinkin' I hallucinate (I hallucinate)
You're my remedy, you save me
From shaking out in the cold (Out in the cold)
I can never let you go, oh

And I forget how to breathe
Get lost in the deep
I'm without medicine
When you're not here with me

I need you in my blood, I need you in my lungs
Baby, you are my oxygen, I can't get enough
I need it for the rush, I need it for my pulse
Baby, you are my oxygen, I can't get enough

(Oxygen, oxygen)
Baby, you are my oxygen, I can't get enough
(Oxygen, oxygen)
Baby you are my oxygen, I can't get enough

Fever dreamin' when you leave me
Hurting more than I can take, thinkin' I hallucinate (I hallucinate)
You're my remedy, you save me
From shaking out in the cold (Out in the cold)
I can never let you go, oh

And I forget how to breathe (I forget how to breathe)
Get lost in the deep (lost in the deep)
I'm without medicine (I'm without medicine)
When you're not here with me (When you're not here with me)

I need you in my blood, I need you in my lungs
Baby, you are my oxygen, I can't get enough
I need it for the rush, I need it for my pulse
Baby, you are my oxygen, I can't get enough
