

Champion

Inner Circle

Now this one is dedicated
To all the singers and players of instruments
Who dedicate their life to the struggle
You know what I mean? Jah Rastafari!

We are the champions, we are the champions
We are the champions of the world
We are the champions, we are the champions
We are the champions of the world, of the world

Reggae music at the best
Best by any test
Carry prophetic message
Universally overstood
Universally overstood

Hey, tame the wildest lion
Remove any snake venom
Calm any storm
Pon the lawn
Any dancehall lawn, yeah

We are the champions, we are the champions
We are the champions of the world
We are the champions, we are the champions
We are the champions of the world, of the world

Believe these words that I say
Brother brotha hafi fall some day
Apartheid no, well, the message is clear
We do we work without fear
Yes, we do we work without fear

Because we are the champions, we are the champions
We are the champions of the world
We are the champions, we are the champions
We are the champions of the world, of the world

Hey

Unto all the bretherens that fought before us
Still carry the struggle today
And if we should give up
This dream would fade away
Yes, this dream will fade away

We are the champions, we are the champions
We are the champions of the world
We are the champions, we are the champions
We are the champions of the world, of the world

Reggae music at the best
Best by any test
Carry prophetic message
Universally overstood
Universally overstood

Because we are the champions, we are the champions
We are the champions of the world
We are the champions, we are the champions
We are the champions of the world, of the world
