

Front and Center

Inner Circle

Yeah, yeah, yeah
Come on, come on
Who wants to come, come on
And who wants to stay, stay
Ooh, yeah

Front and center, all freedom fighters
Front and center, Buffalo soldiers
Front and center, African people (Together now)
Front and center, rastaman

We are gathered here today for certain reasons
The unification of all African nations
To fight against Apartheid
And against all nefarious reasons

And if a blood make it run
And if a fire make it burn
Whatever it takes, let it be done now
Let it be done under jah rising sun, yeah

Front and center, all freedom fighters
Front and center, Buffalo soldiers
Front and center, African people (Together now)
Front and center, rastaman

Yeah, yeah, yeah, yeah
Come on, come on
We've got to unite
One more thing

We've been down for too long
But now the time has come
Come, come, my people, have no fear
Jah, jah, harvest time is here

So if a blood make it run
And if a fire make it burn
And if a brimstone make it come
So be it done under jah rising sun, yeah

Front and center, African people
Front and center, Buffalo soldiers
Front and center, freedom fighters
Front and center, rastaman

Front and center, come on, come on, come on, yeah
Front and center, who wants to come, you better come with me
Front and center, who wants to stay, stay
Front and center,
Front and center,
Front and center, rastaman
Front and center, all freedom fighters (Together now)
Front and center, African people
