

## One Step Ahead

Inner Circle

One step ahead and you're up  
One step behind and you're down  
You've got to be where that spotlight is shining

One step ahead and you're up  
One step behind and you're down  
You've got to be where that spotlight is shining, shining...

One step ahead and you're up  
One step behind and you're down  
You've got to be where that spotlight is shining, shining...

One step  
You've got to be  
One step  
You've got to be  
One step

One step ahead and you're up  
One step behind and you're down  
You've got to be where that spotlight is shining, shining...

One step ahead and you're up  
One step behind and you're down  
You've got to be where that spotlight is shining...
