

Dance

Inner City

Dance, it's your time
To dance and celebrate life
Dance, it's your time
To dance and celebrate life

Life is a gift and we call it the present
Here in this moment, we just want to cherish
Sometimes there's joy, sometimes there's pain
Sometimes there's sunshine and sometimes there's rain

Season come and seasons go
They make you stronger, stronger, stronger, stronger
Everybody hit the floor, turn the music up some more and
Dance, dance, dance, dance, celebrate life

Dance, it's your time
To dance and celebrate life
Dance, it's your time
To dance and celebrate life

Life is so precious
It's a priceless treasure
So keep your focus
On upward progression
Sometimes we're up
Sometimes we're down
Sometimes we're going
Round and round

Season come and seasons go
They make you stronger, stronger, stronger, stronger
Everybody hit the floor, turn the music up some more and
Dance, dance, dance, dance, celebrate life

Dance, it's your time
To dance and celebrate life
Dance, it's your time
To dance and celebrate life
