

Reach

Inner City

I don't have much power
I don't have much say
But if you dig down deeper
You can reach me this way

Feast your eyes on the prize
Don't turn them away
There are those who may step on you
Make you feel the same way

Now's not the time to turn on each other
It's time to show each other love
When you're at your very worst
That's when your ride will burn

I don't have much power
I don't have much say
But if you dig down deeper
You can reach me this way

When the fire is burning
And the flames take you way
Dig a little bit deeper (dig a little bit deeper)
You can reach me this way (reach me this way)
(Reach me this way and I'll be leading the way)

Head held high to the sky
I feel the sun rise
One last champ, one more chance
To lose your disguise

Now's not the time to turn on each other
But the time to be great, to love
In the face of the positive
Show your people some love

I don't have much power (I don't have)
I don't have much say (much say, yeah)
But if you dig down deeper (dig down deeper)
You can reach me this way (reach me this way)

When the fire is burning (when the fire)
And the flames take you way
Dig a little bit deeper (dig a little bit deeper)
You can reach me this way (reach me this way, yeah, yeah, yeah)

Reach me, reach, you can (yeah, yeah)
Reach me, reach, ooh-oooh-oooh
Reach me, reach (reach a little bit deeper) you can
(And you can reach me) reach me, reach
(Oh, ah, reach me this way) whoa, ooh, ooh, aye
Reach me this way
