

Taken back for nothing  
Make me a believer  
Hold it back for no one  
Make me a believer  
You found a new life  
Below the sunrise  
You found a new new life  
Just past the limelight

Move it along now baby  
Taken from what I've seen and  
She can be mine when its just right wrong right wrong

Move it along now baby  
Taken from what I've seen and  
She can be mine when its just right wrong right wrong

Move it along now baby  
Taken from what I've seen and  
She can be mine when its just right wrong right wrong

Move it along now baby  
Taken from what I've seen and  
She can be mine when its just right wrong right wrong
