

# Diamond Eyes

Inner Wave

Go to sleep, you'll be fine  
Close your eyes forever  
Take your time, slow it down  
One foot in front of the other

Oh I know  
We will all be gone someday but  
Until then  
Keep those diamond eyes still shining

Lights keep flashing on the other side  
You know something that I wouldn't care for  
Lights keep flashing on the other side  
You know something that I wouldn't care for

Lights keep flashing on the other side  
You know something that I wouldn't care for  
Lights keep flashing on the other side  
You know something that I wouldn't care for
