

## Fever : Huron John

Inner Wave

I think we're here for a reason  
We're not misplaced or defeated

Another year  
What can I do with this time here?

Beneath the clouds  
There is a storm  
Raining down  
To the core

I think we're here for a reason  
We're not misplaced or defeated

I think we're here for a reason  
We're not misplaced or defeated
