

I'm Aware

Inner Wave

I only wanna make it through today
Is that so hard to ask?
Another life lesson learned, okay
It's hard to speak for this

Ooh a lover born with no one and I could speak to you
You never told me what it means to be with
A lover born with no one and I can speak to you
You never told me what it means to be with you
You've got me all wrong
I never meant to do it baby, do it baby
'Cause you've got me all wrong
I'm aware, I'm aware

It just rolls along I guess
Slow down, slow down
Slow down, down

Ooh a lover born with no one and I could speak to you
You never told me what it means to be with
A lover born with no one and I can speak to you
You never told me what it means to be with you
You've got me all wrong
I never meant to do it baby, do it baby
'Cause you've got me all wrong
I'm aware, I'm aware
