King's Cup

Inner Wave

Talking bout girls, it's naturally empty
Our friends come and go, they make the most of me
I want you more and more but you do not know
Our time is running out, I can't seem to let you go

Oh when you go I'll be around
It makes me bleed and cry when things get down
Oh when you go I'll be around
It hurts to know that I'll be on the ground

Dark was the sky tingly and cold
Honest is my lie, all my friends are animals
I can't remember when, I don't remember why
I fell inside your web as I looked into your eyes

Oh when you go I'll be around
It makes me bleed and cry when things get down
Oh when you go I'll be around
It hurts to know that I'll be on the ground

Not alone
We're not alone
Girl of mine
Why do you leave me
But still I try
It's hard to be here
Not alone
We're not alone
Not alone
We're not alone
Why do you leave me
But still I try
It's hard to be here
