

# MADRE

Inner Wave

Not for nothing I completed all that we had  
Slept a couple nights alone and had a reflash  
No more chances it is over so the last task  
I continue to remember all that we had

It's what I have  
It's what I have  
It's all I have

Not for nothing I completed all of these tasks  
Had to leave this just to show ya I could rehash  
Gets so quiet late at night until the last task  
I continue to remember all that we had

It's what I have  
It's what I have  
It's all I have  
It's all I have
