

Mushroom

Inner Wave

My spores been growing by the day and
My days been shining too bright
Keep me on the edge of my seat babe
Tucked away forever dim light

Seems too real
Wanna keep it chill
Hold me near

That sucks it's a little too close now
Only you can get me to cry
Think I might've said a little too much today
Don't wanna hear about your other guy
All alone in the dark like a mushroom
That's the way I'm gonna get by
Spare me the awkward little details
Oh no there's trouble in sight

Something to fill
It's about to spill
What to do? (it's clear

I'm not that mad, babe, I'm just a little upset
I'm not that mad, babe, I'm just a little upset
I'm not that mad, babe, I'm just a little upset
I'm not that mad, babe, I'm just a little upset
