

Mystery

Inner Wave

Always in the line again
Alone and tried and true
Her eyes were red and black and blue
Surprised she don't fear that

Oh I know your face don't ever do that
Alone in the middle
Always in the middle yeah

She thought of driving off one day
To see how it would feel
The road was dark and black and blue
Surprised she'd rather stay

Oh little girl I know your face don't ever do that
Alone in the middle
Always in the middle yeah

Oh little girl I know your face don't ever do that
Alone in the middle
Always in the middle yeah

What did you think was gonna happen
No one likes to be on the floor
What did you think was gonna happen
No one likes to feel like a chore

What did you think was gonna happen
No one likes to be on the floor
What did you think was gonna happen
No one likes to feel like a chore
