

Nature

Inner Wave

I got nothing to lose now
Nothing to see
That's just another lie now

I got nothing against you
Some things aren't real
I swear I'm trying to tell you

Another bubble
I don't wanna take something back
Stay out of trouble
I don't wanna take something back
I lost you, I'm waiting and waiting

I don't wanna take something back
I don't wanna take something back

Far away from where I've been
I'd like to be sure that you're the best for me
And so when it's stronger than my old uncertainty
Then we will see

I don't wanna take something back
I don't wanna take something back
(Something back, something back)
(Something back, something back)
(Something back, something back)
I don't wanna take something back
(Something back, something back)

Don't wanna take something back
(Something back, something back)
Don't wanna take something back
(Something back)

(Something back, something back)
Don't wanna take something back
(Something back)
(Something back, something back, something back)
