

One In A Million

Inner Wave

I could go away give you space and
I could be a friend and if needed
Let you know the plan how convenient
I would see it through through and through
The sun is bright shows the way
But other times it's blinding me to this day
I've put in all my time to see what it is
But nothing's on it's way down

Oh baby baby it's time
All we needed was time
Just to get us through

Oh baby baby it's time
All we needed was time
Just to get to you

Oh baby baby it's time
All we needed was time
Just to get us through

Oh baby baby it's time
All we needed was time
And I'll get it for you

You were right
I never should've gone down that road
Don't mess with my grave
Don't play with my bones
The worms pave their way into the home
Alone undercover
Longing for others but when
They come to visit
I get so bothered
A house far away with no doors
Where you cannot reach me
I waited for you

Oh baby baby it's time
All we needed was time
Just to get us through

Oh baby baby it's time
All we needed was time
Just to get to you

Oh baby baby it's time
All we needed was time
Just to get us through

Oh baby baby it's time
All we needed was time
Just to get to you
