

Once in a million years  
Once in a million years  
We find the one darling  
We find the one honey

I thought you would want to stay  
But you don't, I can't say it's over  
How I wanted more than normal  
And it's easy, oh so easy  
When it's over, over, over now  
She said tell me how it feels but I don't want to explain

Once in a million years  
Once in a million years  
We find the one darling  
We find the one honey

Once in a million years  
Once in a million years  
We find the one darling  
We find the one honey

I thought you would've stayed by me  
But you won't, I can't say it's over  
How I wanted more than normal  
And it's easy, oh so easy  
When it's over, over, over  
I will tell you how it feels to go away
