

Rose

Inner Wave

All stares as she walks into the room
Hopeless as I'll ever be, I could not know from where I stood
I'm a nuisance, think about it a lot
I used to pray to you
Not sure that you forgot

Oh, son, won't you listen to your mother
It would be much easier to understand each other
Time and time again I'm always looking for the right one
I can help you get there but I can't promise an outcome

Don't you want it?
I can see it
Right there in your eye
Love me, baby
Love me lately
Want you in my life

Oh, dear, won't you listen to your brother
It would be much easier if you were like the others
Time and time again I'm always looking for the right one
I can help you get there but I can't promise an outcome

Don't you want it?
I can see it
Right there in your eye
Love me, baby
Love me lately
Want you in my life

Don't you want it?
I can see it
Time and time again I'm always looking for the right one
I can help you get there but I-

(I can help you get there but I can't promise an outcome
I can help you get there but I can't promise an outcome)

Don't you want it?
I can see it
Right there in your eye (I can help you get there but I can't promise an outcome)
Love me, baby
Love me, lately (I can help you get there but I can't promise a n outcome)
Want you in my life
