

# Whoa

Inner Wave

Why has it stopped, is she really not there  
He's alone  
(Wish that I could call you on the phone)  
I'm awake and aware but it's out of my hair  
Where she goes?

Somethings are made to last a while  
Either stay or watch it go  
Keep me in mind when you're away  
I knew it  
I'll see you on another day

Dreams of another soul, I'm living a different life  
The path can cross, the path can change  
And now back to later maybe we can get together  
Now back to later maybe we can get together  
Now back to later maybe we can get together  
Now back to later maybe we can get together  
Now back to later maybe

Somethings are made to last a while  
Either stay or watch it go  
Keep me in mind when you're away  
I knew it  
I'll see you on another day
