

## Riding on the Wind

InnerWish

Where are my friends of yesterday,  
my dreams that I've been after  
Somewhere along the way I've missed my site  
In a land where only madness rules  
I've lost the will to live  
I failed to see that life is a cruel game

But I will leave them all behind  
And feel the wind in my hair  
I'm sailing away

[CHORUS:]

Now I'm riding on the wind  
And I'm tearing up the sky  
To fulfill my destiny and ease my mind  
Now I'm riding on the wind  
And my heart is filled with lust  
To relive my life and restore the past

One glance back, I realize  
there is nothing I've accomplished  
My life just passed away before my eyes

When sirens sang their songs of doubt  
I never heard their warnings  
Now I recall the days to turn the page

But the fire still burns inside  
Possessing my mind  
I'm sailing away

I'm sailing away  
With eyes full with lust
