

Wings of Anu

Inquisition

Satan's forces, one of dark skies
Into blackness with blind eyes
Wings of shadows from the heavens
Craft of reptile blowing fire

Wings of Anu
Wings of Anu

Oceans dying, mountains rising
Stars are falling back to Earth
Solar eagle of creation
Dropping life seeds into soil

Wings of Anu
Wings of Anu

Gods, masters of light, Blood shall mix with the earth.
Lords, rulers of life. Flesh shall mix with the earth.

Creatures of the moonlight spawning from the life seed
Starlight shining wisdom, secrets of creation
Those from the heavens went to the earth
Planet of the reptiles, glory of the universe
