

## Goblin

### Insane Clown Posse

From the bowls of the city, lurkin' in the trenches  
Underneath the bridges, behind the park benches  
Stench is seepin' off me. I'm gutterlicious  
Thinkin' nothin' of your wishes. I'm uttelry vicious  
Crawlin' through the sewers, it's an intricate job  
Some only a foot wide. I move like the Blob  
Seep into your home every time you catch a night terror  
It's 'cause I'm right there, suckin' out your air  
A priest can't do shit but just tickle my humor \*laugh\*  
'Cause I ain't from the pit. No, that's only a rumor  
I'm atomically demoic. You see me and vomit  
More heads than a totem pole and faster than a comet  
Get it right! I'm the fuckin' bump in the night  
The unexplainable, but for real when I bite  
I fill you with fright, and kill you, I might  
Somethin' from the other side, a horrible sight  
I'm a goblin

I'm a goblin, a hobgoblin  
What the fuck is a goon to a goblin?  
"Nothing, nothing. You ain't scarin' nothing"  
"Nothing, nothing." It ain't nothin'  
I'm a goblin, a hobgoblin  
What the fuck is a goon to a goblin?  
"Nothing, nothing. You ain't scarin' nothing"  
"Nothing, nothing." It ain't nothin'

Clingin' to your ceiling, back bent like the exorcist  
Slit necks and wrist, I exist  
Crawlin' tarantula style with a face smile  
Very bad intentions all the while  
I'll have sick fun playing with my victim  
Lurkin' through the darkness until I pick one  
A damned soul lost in the nether void  
Committin' atrocities feeds me joy  
Oh, boy. Catch me in the creepiest corner  
Starin' you down, gazin' upon ya  
Waitin' to harm ya, that's what I'm here for  
Always lookin' for trouble, hear me creek in the floor  
Outside your closet door lies a demon  
I inflict tortuous pain while you screamin' \*scream\*  
And then, that's it. There'll be no more breathin'  
Much more than a' evil heathen  
I'm a goblin

I'm a goblin, a hobgoblin  
What the fuck is a goon to a goblin?  
"Nothing, nothing. You ain't scarin' nothing"  
"Nothing, nothing." It ain't nothin'
