I am the Devil, liveD eht ma I

I'm the Beast, I have my claws around your neck
You carry me all day, I'm clung to your back
I whisper negativity all in your ears
With my claws dug in your chest, drummin' up fears
I allow just enough air for you to get by
My demands, you will have to live by
I cover your eyes so the sun can't shine on ya
You mope around like you got a pneumonia
When your day comes to an end, and you're trying to rest
I position myself firmly on your chest
So when you're trying to breathe at night, my weight is right there
And I stare at you face to face, give you a nightmare
I'm pullin' on your hair, and I'm shockin' it white
God speaks to you, but I block it with fright
Who am I? Some kind of demon or a heathen
I'm all up in your ears, forever misleadin'

"Shit, I live in the dark" (I'm haunted by the Devil)
"I live in fear" (They said it's in my mind)
(Nobody else can see him)
"I feel like my chest is getting crushed" (Nobody hear my cries)
"And I feel like this all the time" (I'm haunted by the Devil)
"Every fuckin' day of my life" (Somebody tell me why)
"I live with this" (And I can see the Devil)
"I live in the dark" (The Devil in my life)

I cause headaches, bed shakes, your legs feel like dead snakes
Your skin itches real bad and shreds flakes
Every decision you make, it quickly gets shot down
By my voice in your ears layin' the plot down
I tell you nobody can help, don't bother askin'
You feel that heat, you're in Hell's fire, baskin'
Who am I? I'm that poison that eats you
I'm the one in between you and the God that seats you
I'm a liar, but you believe all that I'm dishin'
And always will, as long as your link is missing
I fill you full of fear, I fill you full of tears
You carry my weight on you for years and years
Who am I, and why am I always winnin'?
'Cause you're always sinnin' and fail to be forgiven
Truth is, you could get rid of me if you wanted
But you don't know how, so you're forever haunted

"Shit, I live in the dark" (I'm haunted by the Devil)

"I live in fear" (They said it's in my mind)
(Nobody else can see him)
"I feel like my chest is getting crushed" (Nobody hear my cries)
"And I feel like this all the time" (I'm haunted by the Devil)
"Every fuckin' day of my life"(Somebody tell me why)
"I live with this" (And I can see the Devil)
"I live in the dark" (The Devil in my life)

"It's like livin'" (I'm haunted by the Devil)
"With a filter on" (They said it's in my mind)
"Makin' everything staler than it really is" (Nobody else can see him)
"Negative" (Nobody hear my cries)
"I live in the negative" (I'm haunted by the Devil)
"Everything I see" (Somebody tell me why)
"Everything I'm lookin' at" (And I can see the Devil)
"Everything around me" (The Devil in my life)
"Sucks"
