Insane Clown Posse

This kid Freddy is just as good as any kid in the world right now  
Like any kid dude  
Splendid

So we're gonna build the wall and shoot the aliens out huh?  
The fucking long way homes the safer route huh?  
The kids are dying starving from the drought  
They found a dead girl with her brains dug out huh?  
They executed the wrong man the other day (Again)  
They checked his DNA after it wasn't him  
Another nuclear disaster mass toll haha  
Some asshole dropped his wrench off the scaffold  
Another little kids body was in a grave  
Her head was missing, later found in a microwave  
The worlds a giant battle royal of turmoil  
Pillages on each others villages in burning oil  
The heat increases  
The brain bakes  
How much more pressure can it take  
Shaking, how much weight til' it gives way and breaks

What the fuck  
What the fuck  
What the fuck  
(Hopefully, I'll get popped off soon with any luck)  
What the fuck  
What the fuck  
What the fuck  
(Hopefully, I'll get popped off soon with any luck)  
Life is a wonderful thing like living on this beautiful planet we've been given  
(So fucked up!)

So a bullshit cooker ass kicking coke sniffing joke graduates  
Throat slitting and committing rapes  
It escalates but they catch him til' he escapes  
He takes the bracelets off snips em and breaks  
Half the country are closet racists  
Disgraces hiding their demon faces  
Concealing their horns and pitchforks  
Satanic bitch whores and devil dorks  
The government tells you "milk is good for the bones!"  
When all it really gives you is BONES  
It don't make them hard it makes them soft  
Just cut out the middle man and blow my head off  
The heat increases  
The brain bakes  
How much more pressure can it take  
Shaking, how much weight til' it give way and breaks

What the fuck  
What the fuck  
What the fuck  
(Hopefully, I'll get popped off soon with any luck)

So they can install a breathalyzer in your car  
And they can have drunks up the street tomorrow  
Picking up health care and cure for cancer and AIDS but fuck that shit every one of them pays  
The prisons are too crowded huh? Fresh!  
Butt rape will start in 2 months or less  
And if he's on his best behavior like he oughta'  
He's out even quicker to slaughter your daughter  
The heat increases
