

Enraptured by Sickening Visions of Perverse Debauchery

Insidious Decepancy

Desecrate the flesh before me
Your demise mandatory
Perversity shall set you free
Force the weak to bow to me
For they are the ones that will suffer the consequence
None are innocent
Greed and selfishness
Infesting the minds of the populace
Cancerous disease
Time for them to bleed
Striking when they least expect
Wonderful pain I reap
Beg and plead to end this hell
Falls upon my deaf ears
Crude defilement
I shall now conceive
Blood now seeps
In the pours of eternity
Vengeance I seek
Through debauchery
Cast aside the wretched corpse
Retribution takes its course
Putrifying souls of shit
Cleans the world as I see fit
Every vision guides my path
Mortifying
Sickness and perversity
Mesmerizing
Enrapturing
These visions of debauchery
Controlling me
My actions are not of my will
Putrid humans soil the earth with their ignorant self-
righteous ways
