

## Fix Your Smile

Inspiral Carpets

Fix your smile and fix your stare  
It won't be long till you're out of there  
It's just something I've got to do  
Pay the rent to pay your way  
Keep the hungry wolves at bay  
It's just something we've got to do

Things never looked so good  
Things never looked so good

It should be moved so slow  
Tonight's the night when you let go  
'Cause I, saved my last dance for you  
Don't ever question why  
For it be tonight on a high  
'Cause I, saved my last dance for you

Things never looked so good  
Things never looked so good  
Things never looked so good  
Things never looked so good

Things never looked so good  
Things never looked so good  
Things never looked so good  
Things never looked so good
