

Our Time

Inspiral Carpets

Watching from the touchline
Fired up and ready to play
Standing in the rain too long
It's the same old story again and again
Exuberant and anxious
Tired of waiting in vain
Young and indestructible
Believing in time for a change

This is our time
This is our time
Hold us back and you can't keep us down

This is our time
This is our time
Hold us back and you can't keep us down

This is our time
This is our time
Hold us back and you can't keep us down

This is our time
This is our time
Keep us down

Caught up in the hurricane
Our stars will shine like new
The Northern lights and your love
With my soul mates to see me through
We've broadened the horizons
Getting rid of the same old blues
This is not about revenge
I see you struggle with the truth

This is our time
This is our time
Hold us back and you can't keep us down

This is our time
This is our time
Hold us back and you can't keep us down

This is our time
This is our time
Hold us back and you can't keep us down

This is our time
This is our time
Keep us down

Hung up all my hang ups
I'm ready to fight another day
We've got everything now
Put us down you had your say

This is our time
This is our time

Hold us back and you can't keep us down

This is our time

This is our time

Hold us back and you can't keep us down

This is our time

This is our time

Hold us back and you can't keep us down

This is our time

This is our time

Keep us down

This is our time

This is our time

Hold us back and you can't keep us down

This is our time

This is our time

Hold us back and you can't keep us down

This is our time

This is our time

Hold us back and you can't keep us down

This is our time

This is our time

Keep us down
