

Devastated

Internet Money

Staring at the ceiling
All alone in my room
No, I don't like this feeling
When I'm lost deep with you

Now I'm five-thousand miles away
Without you I'm just stuck in a daze
And the thoughts in my head, can't erase
Of everything I missed about you, you, you, you, you
I don't wanna leave you here devastated
Even though it's not forever 'cause
You know how this game goes, we gotta play it
I'll be comin' back for you
Now I'm five-thousand miles away
I can't wait to get out of this place
I don't wanna leave you sittin' here waiting
Even though it's not forever 'cause

Rain falls on the window
It reminds me of you
Summer days, I miss those
Sitting under the blue

Now I'm five-thousand miles away
Without you I'm just stuck in a daze
And the thoughts in my head, can't erase
Of everything I missed about you, you, you, you, you
I don't wanna leave you here devastated
Even though it's not forever 'cause
You know how this game goes, we gotta play it
I'll be comin' back for you
Now I'm five-thousand miles away
I can't wait to get out of this place
I don't wanna leave you sittin' here waiting
Even though it's not forever 'cause
