

# Let You Down

## Internet Money

Oh oh oh  
Internet Money, bitch  
Oh oh oh  
Hahaha, Nick, you're stupid

I know a heartbreaks her favorite sound  
But baby you ain't have to let me down  
And I know you were never really there  
But I feel like you really always cared  
Don't bother, I know you wanna hit my line  
But I will never let you waste my time  
Oh, I wonder? Tell me, is it right?  
Tell me, is it true? Something you despise?

Oh, you despise me? It's more than likely  
Garments on my hands and they pricey  
And I don't need you, no, you can't advise me  
Them is just a couple reasons why they do not like me (Hey)  
We be with their bitches and they licking up a ice cream  
The bitch gave away my heart, God, this shit too God damn icy  
We ain't make no vows, want me to call her wifey  
I cannot do that, I don't trust you to slice  
These emotions that I file, things I heard, they liars  
Will you be there anyway? Just tell me if you riding?  
Will you be there anyway? Just tell me what you finding?  
If you down 'til the end, just tell me if you like it

I know a heartbreaks her favorite sound  
But baby you ain't have to let me down  
And I know you were never really there  
But I feel like you really always cared  
Don't bother, I know you wanna hit my line  
But I will never let you waste my time  
Oh, I wonder? Tell me, is it right?  
Tell me, is it true? Something you despise?

So are you comfortable?, baby, you like me  
I had to pick a heart out like a type beat  
I was digging at her love, like I'm mining  
She type to take away my timing  
Finding, finding who I really am  
Lying, lying, I know what your saying  
Trying, trying, I know I can make it  
No crying, crying, sooner I can sit back  
I'm had a hard time trying to find why I  
Feeling I might die, feel like the time's right  
And it's been such a long time since I felt all right  
I've been alone and you've been alone, so what's right?

I know a heartbreaks her favorite sound  
But baby you ain't have to let me down  
And I know you were never really there  
But I feel like you really always cared  
Don't bother, I know you wanna hit my line  
But I will never let you waste my time  
Oh, I wonder? Tell me, is it right?  
Tell me, is it true? Something you despise?

Yeah (Oh, oh)  
Yeah (Oh, oh)  
Yeah (Oh, oh)
