

Memory Serves

Interpol

It would be so nice to take you
I only ever try to make you smile
No matter what we're gonna keep you occupied
But only at your place
Only at your place

It would be no price to pay
I only ever lie to make you smile
All kinds of dust are gonna keep me satisfied
But only at your place
Only at your place

Tonight a special memory serves me
And I'll wait to find the wrong way
Tonight a special memory serves me
And I'll wait to find

It's over
It's over
Feels like, it feels like
It's over

Why is it so hard to stay away?

Tonight a special memory serves me
And I'll wait to find that I'm gray

Tonight is special
I only memorize those things I deny
And I forget why it'll sing
Seize the day

Don't have to say that you'd love to
But they'd be please that you want to
Someday

It would be no price to pay
We began this our way
It would be no price to pay

Don't have to say that you'd love to
But they'd be please that you want to
Someday
Don't have to say that you'd love to
But they'd be please that you want to
Someday
Don't have to say that you'd love to
But they'd be please that you want to
Someday
