

## NYC (Peel Session)

Interpol

I had seven faces  
Thought I knew which one to wear  
But I'm sick of spending these lonely nights  
Training myself not to care  
The subway is a porno  
Pavements, they are a mess  
I know you've supported me for a long time  
Somehow, I'm not impressed

But New York cares (got to be some more change in my life)  
New York cares (got to be some more change in my life)  
New York cares (got to be some more change in my life)  
New York cares (got to be some more change in my life)

Subway, she is a porno  
And the pavements they are a mess  
I know you've supported me for a long time  
Somehow, I'm not impressed

It's up to me now, turn on the bright lights  
Oh, it's up to me now, turn on the bright lights

But New York cares (got to be some more change in my life)  
New York cares (got to be some more change in my life)  
New York cares (got to be some more change in my life)  
New York cares (got to be some more change in my life)

It's up to me now, turn on the bright lights (got to be some more change in my life)  
(Got to be some more change in my life)  
Oh, it's up to me now, turn on the bright lights (got to be some more change in my life)  
(Got to be some more change in my life)
