

# Precipitate

Interpol

Been bad, Saturn makes your mind break in pieces  
Been bad, so you cannot find the dimensions  
And it will be around these spots that I've given to you  
You will know that you'll greet my vapors

Every time that you pass through this room  
Pass through this room, walk through my gloom  
Daphne you find me

Daphne, when you find me let  
The blood drive and come alive with me, Daphne  
Symmetry you can't help but admire  
Or rejoice from this sister

Been bad, Saturn makes your mind break in pieces  
Been bad, so you cannot find the dimensions  
It will be around these spots that I've given to you  
You will know that you'll greet my vapors

Every time that you pass through this room  
Pass through this room, walk through my gloom  
Daphne you find me

Daphne you find me to put you  
Where inside you fight for my memory, Daphne  
Symmetry you can't help but admire  
Or rejoice for this, seems to be

Daphne come as on display, will you find a way  
To draw the curtains of damp around your blushing ambition  
Blushing ambition

I found you inside my mind  
I lost you inside my mind  
I found you inside my mind  
I lost you inside my mind

I was a child, I was a vice, a coyote  
Conditions, locations, facts  
I was a child, I was a vice, a coyote  
Conditions, locations, facts

Erase them all fast  
Erase them all  
Erase them all fast  
My own thing, my own thing

Now you're all that I have here  
Now we can't remember  
You could fall back on lust  
When you've learned to wait

They can be like the friends and neighbors  
You will get to appreciate them

I have inside me some strange glow  
Still enjoying this that's why I made a mess

Still enjoying this that's why I made a mess  
That's why I made a mess
