

## The New (Peel Session)

Interpol

I wish I could live free  
I hope it's not beyond me  
Settling down it takes time  
One day we'll live together  
And life will be better  
I have it here yeah in my mind  
Baby, you know someday you'll slow

Baby, my heart's been breaking  
I gave a lot to you  
I take a lot from you too  
You slave a lot from me  
Guess you could say  
I gave you my edge

I can't pretend  
I need to defend  
Some part of me from you  
I know I've spent some time a-lying  
I can't pretend  
I don't need to defend  
Some part of me from you  
I know I've spent some time a-lying

You're looking alright tonight  
I think we should go  
You're looking alright tonight  
I think we should go
