

This Frozen Hell

Into Eternity

Saskatchewan winter embraced by the cold
Absolute chaos vitality sold
I'm dying in this frozen hell
The encroaching cold of winter prolonging
Frostbit exposed skin begging for mercy

Climate of panic
A year in misery
Tainted with resentment
Eyes blind with cataracts
Your throat turning constrict
The paralyzing cold chokes your lungs

Far from the sun
I am living in this frozen hell
Far from the sun
I am dying in this frozen hell
Living in this frozen hell
Dying in this frozen hell

Saskatchewan winter
Intensified
Nothing can break us the will to survive
We're living in this frozen hell
Riders through conflict
Fighting the storms
Outlasting the climate
Conquering all
Remain

Far from the sun
We are living in this frozen hell
Far from the sun
We are dying in this frozen hell
Living in this frozen hell
Dying in this frozen hell
