

## A Light in the Trees

**Into It. Over It.**

We talked a hustle in the smoke beneath the cover of noise  
We saved our quarters up for months to play alongside the boys  
And we write on the walls at night  
Save me a space in line, a space in line

We split the difference and the loser had to pay for the drinks  
We took the long way through Ann Arbor just to hear what she thinks  
We put our trust into the night, we were the light in the trees  
And I slept alone inside my car but held the smile for weeks

We put our distance on the dashboard of your Subaru  
We exercised the excuse  
We shared our secrets while your windshield told us what was coming  
But couldn't follow through or see the truth

So we write on the walls at night  
Save me a space in line  
We write on the walls at night  
Save me a space in line
