

Fak It

Into It. Over It.

Someone should tell you that your habits are as bad as they seem
Well, that someone is me
It's the company you keep
They can't seem to keep their mouths shut and well that's... okay
Easier to say than to do, but why you?
You've misunderstood my intentions
I'm not coming over anymore
I'll turn around and walk out that door

If we're having fun
Then it's worth it
If we're having fun
Then it's worth it
If we're having fun
Then it's worth it
If we're having fun
Then it's worth it

Well, are we having fun?
'Cause I'll show you what you should have done
You'd have been better off just lighting your money on fire
You'd have been better off just lighting your money on fire
You'd have been better off just lighting your money on fire
You'd have been better off just lighting your money on fire

You'd have been better off
You'd have been better off
You'd have been better off
You'd have been better off
You'd have been better off
You'd have been better off
