

# It's Not 2001

Into It. Over It.

Hey man, I thought things had changed  
What'd you spit on Anna's coat for?  
I'll tell you, from everything I've heard  
It sounds like everything's the same  
Only add seven years and three ex-girlfriends names

Sending working signals to your friends and fiancee  
What you were is what you are  
Not working towards anything

Hey man, don't act like I don't know  
Everyone's been hurt before  
But it's not 2001  
No one cares who your friends are

Sending working signals to your friends and fiancee  
What you were is what you are  
Not working towards anything

More thick skinned than we were back then  
I'm hoping someone you know will show you this  
You can spout off your mouth or fly off the handle  
Full of brace, my face can take it  
But it won't take back a thing I've said  
No, it doesn't change a thing I've said

So if you want to fight me  
Go ahead and fight me  
So if you want to fight me  
Go ahead and fight me
