

Scottie Spliffen / Luc Bongley

Into It. Over It.

I'm no good with maps
I've no sense of direction
And I can't write anything without autocorrection
I just can't keep up with this curriculum
I wish I could learn in my sleep

I've got a problem with problems
I'm not punctual
I get lost in context and sentence construction
I've never said this to anyone before
I've never said it out loud

I talk when I'm nervous
I talk all the time
I'm a walking second guess
With a mouth like a fault line
I'm a glutton for punishment
When I'm just being honest
But I'm just being honest

I wish I had the means to
Stop killing things that I'll never get to meet
I've got issues with control
Controlling anything and all

I'm afraid of making any sounds
When anyone's around
I'm afraid of making any sounds
When anyone's around
I'm afraid of making any sounds
