

Hello, I'm Noah

Intohimo

Twenty years
Oh, Twenty years
Dead(?)
When whatever I could do to change the past
Won't change the past
The sky is clearing up
But, somehow, I'm still here
Far from whatever
I Was before
The flood came
and the sky
The sky kept falling
and the sky
The sky kept falling

But for you to know (But for you to know)
For you to know (For you to know)
I am, What I am
But I am yours
Oh, I am yours

Until the end of deadly days
But never again
Will we drown in the flood
Never, Never again
Will we drown with the flood

When whatever I could do to change the past
Won't change the past
The sky is clearing up
But, somehow, I'm still here
Far from whatever I Was before
The flood came
The sky kept falling

But for you to know (But for you to know)
For you to know (For you to know)
I am, What I am
But I am yours
(Oh)
I am, What I am
But I am yours
Oh, I am yours

Well thank god
